BRAND INSIGHT SURVEY

SURVEY REPORT PREPARED FOR:

COMPANY NAME

OVERVIEW

SURVEY BACKGROUND & METHODOLOGY

The Brand Insight Survey is designed to provide participating companies with a current view of what the industry is saying about their company or brand. This information is a snapshot in time—one that provides a sense or feeling about how industry professionals think and feel about specific brands. While the information provided should be viewed as qualitative, the data and verbatim comments contained in this report may confirm what companies suspect is happening in the market, but also may generate some surprises. Either way, this information is important to know and can help participating companies position themselves in the future.

The sample for this online survey was selected from the domestic qualified circulation of *FenderBender*. Individuals included in the sample were emailed an invitation to participate in the survey on 3/18/2024 and were offered an incentive to take part (those that completed the survey were entered in a drawing for a $100 Amazon gift card).

Survey responses were collected from 3/18/2024 to 4/8/2024, and findings in this report are based on the input from 132 survey participants.
